For the Momphis Append.
THE BEAUTIFUL LAND. BY HARRY C. There's a beautiful land that lies beyond

A deep and mighty river; And they, of whom we love most fend, First feel the cold tide's shiver. This beautiful land is hid from view By the mist from the rushing river, That bangs like a pall o'er its tide of bine. With a shadowy, ghostly quiver.

Tis said beyond, in this beautiful land Across the river's flowing. w's a shore of pearl, with golden sand, And flowers forever blowing-

To darken the sunbeams slimmer; The glistening robes of spotless white Like sparkling dew-drops gitmmer. And there, on the shadowy further side, Stands a babe and the mother with her, And they beckon me plunge in the very tide, That beyond we may live together.

MEMPRES, TERN.

OUR FINANCIAL DANGERS. om the New York Tribune.] A very proper complement of the late 345 Second street. receedings in congress on the currency proceedings in congress on the currency question is the proposition of Mr. Davis, of the house, a member from New York, to authorize the secretary of the treasury to issue legal tenders, not bearing interest, to redeem the 7:30 loans due this year and next. This proposition was offered by Mr. Davis after the passage of the bill for the issue of \$100,000,000 of resultance in the passage of the bill for the issue of \$100,000,000 of < thacks, but a single objection was sofficient to arrest the consideration of his resolution. Proposing to pay the six per cent. compounds in this way, naturally suggests paying off the remainder of our national liabilities in the same maker. It certainly would be a great saving of interest to adopt Mr. Davis scheme. We are paying \$50,000,000 a year interest on our 7.30s. Why shouldn't flicient to arrest the consideration 0 re save it by paying them off, bodily, in sgal tenders? They are payable in curency land are not greenbacks corrency, and legal tender corrency? We are told on all sides that nothing can be better, as a basis of banking, as an instrument of trade, as a currency for the people, than Uncle Sam's promises to pay. They are claimed to be just as good as gold dedians, or silver dollars, for all the purosses for which money is required for our internal trade. And we are somemes told it by men who are not positive sels on the subject. We have been complained of for styling our national bank-ing system "a rotten system," because it is based on lying promises to pay. Now, here

s a proposition which tests the sound-ness of our criticism. If the legal tender notes are as good as is alleged, why not pay off the 7:30 losu in them, as proposed by Mr. Davis? Why pay \$50,we can so easily get rid of such a bur-densome tax? If the legal tender notes of the United States are just as good as cain for our internal trade and business, WILLIS & SLOAN as we are told-if they are in fact money-then we cannot have too many ARCHITECTS, them, for no reople under heaver an have too much money. The argu-OFFICE-Room No. 3, over the DeSoto Savings ment is irresistible that not only is it a good thing to have the 7:30's paid is recembacks, but it is the very bea No. 20 Madison St., Memphis, Tenn., Will, furnish Plans and Specifications for all kines and styles of buildings, and superintend their erection, and measure at kines of mechanical work connected with buildings. ing for everybody to have them paid. And when we shall have paid a 7.30's, we have only to pass one mo eral tender act, and under it pay off our cles by the same process. When we ave done this, we shall have realized be logical results of the inflation policy, F. STITH. pported by the thirty majority of the use in its vote of Thursday last.
